Title of Program: The Effects of Traumatic Brain Injury and Concussion in the Learning Environment and Strategies to Mitigate the Impact

Presenters/Facilitators: Mr. Joey Tamburo, Head Athletic Trainer
Dr. Nicolette Campos, Director, ARC

Sponsors and Partners: The Accessibility Resource Center
The Department of Athletic Training
The Teaching & Learning Center

Date, Time, and Location: Thursday, February 20, 2020, at 3:30 pm, 208 Chavis UC

Description of Program: This presentation will briefly review the incidence and diagnosis of head injuries and concussions at UNCP, for both student athletes and non-student-athletes. The presentation will also detail the healing process through recovery as well as possible lasting effects as they pertain to the learning environment. Participants will be given resources and strategies to implement in their classes and programs to help facilitate the student's transition back to academic rigor.

Style of Presentation: Power Point presentation with time for participant interaction through discussion and questions.

Target Audience: Faculty and teaching staff

Learning Objectives and Outcomes: Participants will learn the prevalence of student head injuries and concussions at UNCP, which academic accommodations may help students return to the learning environment, and effective strategies they can implement to help facilitate the student's transition back to the course room.

Notes:

Accessibility Statement: UNC Pembroke is committed to having an accessible campus for individuals with disabilities. To request information regarding accessibility, or for an accommodation under the Americans with Disabilities Act (ADA) please contact Scott Hicks at 910.775.4032 or scott.hicks@uncp.edu at least 10 business days prior to this event. A good faith effort will be made to provide accommodations for requests made less than 10 business days in advance.
