

Honors Curriculum Worksheet

This form is meant to help honors students plan and record progress in the Honors Curriculum. As honors students register for and complete honors course credit (i.e. seminars, discipline-specific, contract, independent study, or equivalent courses), they can keep a log of their progress here. The totals are to help students gauge their progress toward the minimum 22 required honors credit hours, four of which must be from the Senior Project Sequence. Check the box to indicate whether or not the honors credit was from a Contract Course. A maximum of 12 hours of Contract Course can be applied toward honors requirements.

Course number and title:	Contract Course (12 hrs may count toward honors requirements)	Credit hours
_____		_____
