Motor Pool

Perform a wide range of progressively responsible tasks involving the service, inspection, repair, rebuild, and diagnosis of a diverse number of mechanical systems. This is for a variety of gasoline, diesel, and alternative power Engines/equipment.

Energy & Sustainability

The water barrel was installed on April 5, 2023. It was designed to collect and store rainwater for use in gardens and lawns. The largest barrel can hold up to 1200 gallons of water. It will help reduce water usage and conserve natural resources.

Heat Illness Recognition and Prevention

Every year, dozens of workers die and thousands more become ill while working in hot or humid conditions. The OSHA Heat Illness Prevention campaign educates employers and workers on the dangers of working in the heat.

- **Wear loose-fitting clothes in light colors that don't absorb heat.**
- **Whenever possible, stay inside in air conditioning, especially if you have respiratory conditions.**
- **Early morning and late afternoon are the best times to engage in outdoor activities**
- **Drink plenty of water, and avoid caffeine and alcohol.**
- **Know the signs of heat illness and act quickly if you feel weak, or lethargic, stop sweating, become dizzy, or get chills and a headache.**

Employee Announcements

EMPLOYEE OF THE MONTH FOR MAY 2023

Christine Jones

Building Environmental Technician

**Facilities Operations/
Housekeeping**

PROMOTION

Shana Lowery

**Building Environmental Service
Supervisor**

**Facilities Operations/
Housekeeping**
