

These are error messages you might receive when you attempt to register, and you are not successful. For all errors, you must contact the department or instructor of the class and inform them of the error message(s) you have received (email a screenshot of the error for an accurate response). If they approve, they will then issue an override or permit for each error message you received, so that you may enroll in the class. You may go directly to the department if you cannot reach the instructor.

**Please note:** The Office of the Registrar cannot approve or issue departmental/instructional overrides; you must contact the instructor or the academic department.
