

Preface

The University of North Carolina at Pembroke Fact Book is produced annually by the Office of Institutional Research and Planning. It contains descriptive information about various aspects of the University. Included in the Fact Book are data, both current and historical, concerning enrollment, student characteristics, and faculty and staff characteristics.

This information is compiled from data entered by personnel in a variety of offices on campus, and we acknowledge their contributions to the production of the Fact Book. Fall 2002 information on student enrollment is as of August 30, the tenth day of classes. Information on personnel, faculty, staff and administrators, is as of November 1.

The primary purpose of this publication is to assist those seeking information about the University. Most of the reports include five years, and in some cases ten years, of historical data which may be especially useful for planning, evaluation, and trend analyses.

The Office of Institutional Research and Planning, in its ongoing effort to provide timely management information, encourages your comments and suggestions for improvement. We hope you find this edition both informative and useful.
