every disease has an herb to cure it,
and every person a mission, This is the
Indian theory of existence.*

The medicine wheel is a physical manifestation of Spiritual energy. An outward expression of an inter dialogue. A mirror in which we can better SEE what is going on within us. It is a wheel of protection and enables us and allows us to gather surrounding energies into a focal point and to commune with Spirit, Self and Nature Creation: It helps us with our Vision to see exactly where we are and in which areas we need to develop in order to realize and become our potentials.
