Outlook Web Access:

Access Your Mail, Calendar, and Contacts via a Web Browser

To access your inbox with only a web browser, open your browser of choice and enter the URL owa.uncp.edu/owa in the location bar.

The login page for webmail appears. You must use enter your network username and password to login to this resource. If you do not know your username or have forgotten your password, you must contact the DoIT Helpdesk at 910-521-6260.

Along with the username and password fields is a security option that can increase protection of your email. By default the "public or shared computer" option will be selected.

Once the proper credentials are entered, the webmail interface appears. From this interface you can access your email inbox, calendar, or personal contacts using the tabs on the upper left corner of the page.
