X. Call to Order

The meeting was called to order by the Chair at 3:30pm.
Rotating duties for secretary fell on Rick Crandall, who compiled these minutes.

XI. Approval of the Minutes of the April 16, 2014 Meeting

Minutes were approved 8-0-0.

XII. Approval of the Agenda

Agenda was approved 8-0-0.

XIII. Report from the Chair

The proposal below (8.1) from the Department of Mathematics and Computer Science passed the Academic Affairs in April 2014 but was withdrawn from the senate because no member from that department was present at the senate meeting. I will therefore present it again at the next senate meeting for vote.

8. Proposal from the Department of Mathematics and Computer Science
8.1 Program Proposal: Revise the Minor in Information Technology to better incorporate pre-requisite courses
Proposals 8.1 passed: 8 for, 0 against, 0 abstain.

XIV. Reports from Subcommittees

E. Curriculum: Jaime Martinez, Chair
   1. Actions Requiring only AA Chair Signature
7. Proposals from the Department of Chemistry and Physics
7.1 Course Proposal: Revise prerequisites for CHM 1300 General Chemistry I
7.2 Course Proposal: Revise prerequisites for PHY 1500 College Physics I
Proposals 7.1-7.2 passed: 12 for, 0 against, 0 abstain;
7.1-7.2 will be forwarded to the Chair of Academic Affairs committee for his
signature. The changes also need to be proposed to the General Education
Subcommittee for their approval.

8. Proposals from the Department of Nursing
8.1 Program Proposal: Add program outcome to MSN catalog description
Proposals 8.1 passed: 12 for, 0 against, 0 abstain;

2. Actions Requiring AA Approval Only
None

3. Actions Requiring AA Approval and to be sent to Senate

6. Proposal from the Department of Biology
6.1 Program Proposal: Revise the requirements for the Bachelor of Science in
Environmental Science. We proposed to remove three required courses (CHM
2500, GLY 1150, and GLY 2500), add two required courses (BIO 4320 and
GGY 4040), and adjust the elective options.

Rationale: The proposed earth science and chemistry changes are to take
advantage of courses that were not offered when the program was created and
to add more flexibility so the students can tailor the degree to their career path.
These courses changes will allow students to build a more specific skill set for
future employment.

The proposed change associated with Conservation Biology (BIO 4320) is to
help students meet the writing requirement and this course is a course that
applies many of the principles presented in the other environmental courses.

Dept vote: 18 for; 0 against; 0 abstain
Affect others: Yes
Departments affected and how:
• Chemistry – will affect enrollment in CHM 2500 Organic Chemistry
• Geology – will lower enrollment in some earth science courses while
increasing enrollment in others.

Proposals from the Department of Art

10.8 Program Proposal: Revise our Minor in Art History by removing a required 3 hour non-Western art history course and replacing it with a 3 hour elective (selected from a list currently stated in the catalog).

Rationale: Students often consider declaring the minor late in their undergraduate careers and our course rotation prevents them from finishing in a timely manner. This change would not impact the minor’s integrity and will allow students to pursue interests.

### 10.9 Program Proposal: Revise Minor in Media Integration Studies

#### 10.9 Program Proposal: Revise Minor in Media Integration Studies

Delete electives PHI 1020, MCM 2100, ENG 2900, BRD 2800, and SOC 2220. Add as electives ART 1500, ART 2400, ART 3000, ART 3500, ART 4750, and MUS 3670. Remove Mass Communication from list of interdisciplinary collaborators.

Rationale: The elective courses being removed are not offered consistently because of evolving departmental staffing and needs; Mass Communication has indicated that it will no longer participate in the minor for the same reason. The added electives are appropriate for the minor; the drawing and printmaking courses include animation and digital components.

**Dept vote:** 7 for; 0 against; 0 abstain  
**Affect others:** yes  
**Departments affected and how:** Courses offered by Mass Communication, Philosophy and Religion, Sociology, and English are being removed from the minor. An additional Music course is being added. Mass Communication will no longer be a collaborating department; Music remains.

The report below was sent via email:

*The Enrollment Management Subcommittee met on Wednesday, September 10 with four members in attendance. A new member from LETT and an SGA representative had not been selected by the time of this meeting.*

*The group selected Dr. Guynn as chair and Emily Neff-Sharum as secretary and agreed on a number of items to consider this year: complying with new regulations related to the Fostering Undergraduate Student Success initiative; encouraging students to complete financial aid paperwork earlier to eliminate delay in buying textbooks; roster verification and withdrawals for online students.*

*To address this last issue, the committee is interested in surveying faculty who teach online about their definition of online “attendance”; we request input from AA on this idea.*

6. Proposal from the QEP Committee

THE WRITING INTENSIVE PROGRAM

The Writing Intensive Program is an initiative of the UNC Pembroke Quality Enhancement Plan. The goal of the program is to enhance the ability of students to write effectively and appropriately in both general writing and professional writing in their disciplines. The program consists of Writing Enriched courses and Writing in the Discipline courses. Writing Enriched courses are 2000- and 3000-level courses in which writing supplements the coverage of course content. It includes extensive and intensive instruction in writing. Writing in the Discipline courses are 3000- and 4000-level courses that are designed to teach students about the roles and uses of writing in their fields of study. As a requirement for graduation, students must complete nine semester credit hours of Writing Enriched and Writing in the Discipline courses. One course must be a Writing in the Discipline course.

The courses listed below are approved to be offered as Writing Enriched or Writing in the Discipline courses. When these courses appear with the designation WE (Writing Enriched) or WD (Writing in the Discipline) in the title of the course in the course schedule, they can be taken to satisfy the writing intensive graduation requirement. The completion of ENG 1050 is a prerequisite for all Writing Enhanced or Writing in the Discipline courses.

AIS 2410/ENG 2410 Environmental Literature—Writing Enriched
Survey of Indigenous and multinational environmental literature and its relationship to race, class, gender, sexuality, and/or dis/ability, attentive to local human and ecological communities. Variety of authors and genres. Credit, 3 semester hours. PREREQ: “C” grade or better in ENG 1050.
