PART 8: SUPERVISOR COMMENTS ON EMPLOYEE'S PERFORMANCE

Goal #1: Renee has transitioned easily to the new ERP and has been invaluable in helping others learn to navigate the system. Her biweekly "tips" emails to faculty and staff greatly assisted in making the transition elements easier for all.

Goal #2: Renee did well training Gloria this spring as her back-up for training and research resources, and Gloria has reported to me that Renee was very helpful (and patient with her!) as she learned the new processes.

Goal #3: Renee did exceptional work on the CNNS Sponsored Research Committee. She not only provided significant input on process improvements and current challenges in research administration, but she also took the initiative as a leader in the group to set up goals and timelines for the committee and shepherded the committee's work. The Committee Chair reported that she could not have gotten so much accomplished if it weren't for Renee's keen organizational skills and process knowledge keeping things moving forward effectively. Her work also resulted in the removal of several unnecessary College approval processes/forms and the development of a College-wide "scorecard" report on grant activity that will be incredibly useful to all of the departments in the College.

Our department as a whole benefits greatly from Renee's process management prowess. She runs a well-oiled machine but is patient with her teammates who may be less organized (including me). This has translated into Renee being keenly aware of workload imbalances within the team, and she provided several great solutions to make our workflows more efficient, particularly in revising the routing templates that the faculty find much easier to use and that cause less disruption for the administrative staff. Renee has been excellent at trying to find ways for work to be accomplished more easily for everyone.

I would like to see Renee work on finding new techniques for building relationships with the research faculty in order to communicate more effectively and efficiently with them, particularly since the faculty have a wide range of personal working and communication styles. I'd like Renee to find more effective ways to adapt her communication to fit their styles so that communication is clear and helpful.
