

Preface

The University of North Carolina at Pembroke Fall 2009 Fact Book was produced by the Office of Institutional Effectiveness. It contains information, both current and historical, about enrollments; student, faculty, and staff characteristics; and academic programs.

The information for the Fact Book was compiled from data entered by personnel in a variety of offices on campus, and we acknowledge their contributions to the production of the Fact Book. For the current edition, student enrollment information is as of September 1, 2009, the tenth day of classes. Information on faculty, staff and administrators is as of September 30, 2009.
