uniFLOW User Experience

User ID badge self-registration at Canon imageRUNNER devices

This procedure must be performed on first use or again if the ID badge is lost and replaced

<table>
<thead>
<tr>
<th>Swipe badge at the card reader attached to any Canon device.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Note: With proximity card readers, the card reader may be embedded inside a box next to the operations panel.</td>
</tr>
</tbody>
</table>

On first use of badge a login screen is shown.

Enter your username and password for the network domain. Press the login button.
You are now logged into the device and your ID badge is registered to your account in uniFLOW. Your ID badge will now allow you to access any Canon device.

Note: The Canon device screen may not show the same applications as shown here.

Alternate view:

Depending on the Canon device’s default screen configuration, this uniFLOW Secure Print Release Queue screen (or similar) may be shown when logged in.

To return to the Main Menu, press the Main Menu hardware button on the operations panel to the right of the LCD panel.
