Department of Public Instruction

Overview of Master's of School Administration Program

The current Master of School Administration (MSA) Program at the University of North Carolina at Pembroke (UNCP) began as a collaborative degree program with East Carolina University. Through legislative action taken by the North Carolina General Assembly and the UNC Board of Governors, UNCP received approval to reinstitute its former stand-alone MSA program in July 2000. The MSA program at UNCP is housed in the School of Education and partners with the School of Graduate Studies to deliver the program. The performance indicators of the North Carolina Standards for School Administrators, Educational Leadership Constituent Council (ELCC), and the 2008 Interstate School Leaders Licensure Consortium (ISLLC) provide

overarching guidance for the program. Professional and experienced faculty, all of whom hold the terminal degree and appropriate licensure, lead and teach in the program. The primary instructional approaches used to present course content reflect a constructivist model of teaching and learning that includes interactive seminars in which the professor and students engage in meaningful verbal inquiry into relevant educational issues. Other teaching methodologies include cooperative problem solving, case study reviews, interactive technology based exercises, and discussions of varied field-based experiences. The MSA program prepares students to meet the licensure requirements for the School Administrator Level I. The enrollment pattern is typically four semesters and two summer sessions, on a part-time basis. In 2006, the NC State Board of Education approved the reinstatement of the School Administration Add-on Licensure program at UNCP. The program was developed, admission criteria were defined, and courses were offered beginning in fall 2006. In June 2007, the first cohort of add-on program completers was recommended for licensure.

Special Features of the Master's of School Administration Program

The MSA candidates reflect the diversity of southeastern NC and contribute to the pool of minorities and women who become school leaders. Admission to the MSA program is a selective process, reflecting rigorous entrance requirements. Students entering either the degree or add-on licensure program must have completed 3 years of teaching experience, as well as meet respective admissions requirements. After an initial screening, eligible candidates for the add-on program are interviewed and submit a writing sample. Candidates accepted to the add-on program receive a plan of study after careful review of their credentials. Both the MSA and add-on programs address the ELCC and North Carolina School Executive standards and require a yearlong internship. Candidates develop an extensive reflective Educational Leadership portfolio to demonstrate knowledge, skills and dispositions for effective school leadership. The MSA program continues to use TaskStream, a web-based performance assessment and electronic portfolio system. MSA candidates are able to maintain their administrative internship portfolio in an electronic format. All critical assignments in MSA courses are uploaded to the electronic portfolio. A pre- and post-self-evaluation was established in TaskStream for use in the Educational Leadership internship to assess areas of strength and areas for professional growth.

School improvement topics are emphasized throughout the curriculum. Candidates develop and implement multiple school improvement projects including: comprehensive community engagement project (EDNL 5030), in-depth curriculum analysis project (EDNL 5850), change projects, climate studies, demographic profiles, action research focusing on issues such as high school reform, analysis of the NC Teacher’s Working Conditions Survey, minority enrollment in classes/programs for advanced learners, dropout prevention, recruiting and retention, demographic profiles of school systems, assessment of safety, assessment of what is working in curriculum, and parental involvement. At program exit, candidates must pass an intensive oral examination administered by faculty. While completing the program, many candidates are appointed to administrative roles, typically including assistant principal and central office positions. The MSA program conducts an annual survey to assess candidate needs, with results being used to make program improvements. Examples include revisions to program curriculum and course schedules. In order to meet the personal/professional needs of candidates, varied course formats are offered. The entire curriculum has been developed in an online/hybrid format and courses are offered in both face-to-face and online/hybrid sections. Face-to-face courses are offered at on- and off-campus sites, primarily at regional community colleges. The program is strengthened by bringing in guest speakers. During 2015-2016, these speakers included an LEA curriculum director, four attorneys with statewide reputations, a local finance officer, a public information officer, a director of human resources, regional principals, assistant principals, and a school counselor, several principals and one superintendent.
