

Creating an Adobe Account

When you open a Creative Cloud application for the first time it will prompt you to login with an Adobe ID. If you have your own Adobe ID already, login and begin using it immediately. This account does not need to be tied to a UNCP email address.

If you do not have an Adobe ID, you will need to sign up for one. The account is free. Select *Get an Adobe ID* on the login page. Alternatively, you may opt to sign in with Google using your UNCP or personal Google account to streamline this process.

If you select to create a new account you will be prompted to enter your name, email address, desired password, and birthdate. You may use your personal email address or your UNCP email address. Security Note: **IF you choose to use your UNCP email address, please do not use the same password you use to log into your UNCP account. Always use a unique password with every account.**

Upon account completion, you may begin using the Creative Cloud application immediately.
