### Retention Requirements

The academic progress of each MSAT student is monitored by the Program Director as well as by the Dean of the Graduate School. An accumulation of nine (9) semester hours of “C” quality work, or a single grade of “F,” makes a graduate student ineligible to continue graduate studies or to receive a graduate degree at UNC Pembroke, and the student will be dismissed.

### Graduation Requirements

A minimum GPA of a 3.0 and successful completion of all MSAT courses is required in order to receive the master’s degree. Students must also score a 3 on the required AT Milestones and 70% or higher on each of the domains on the comprehensive preparatory examinations. Students will have three attempts to earn the required score on the comprehensive preparatory examinations.
