Communications/Marketing/PR Intern

Description:

BENNETT AEROSPACE INC. in Cary, NC has a two consecutive semester intern opportunity for two highly motivated juniors, seniors or graduate students. Bennett Aerospace is a fast-paced advanced technology development company that creates technology that will change the fabric of society. To learn more about Bennett Aerospace, feel free to go to our website at www.BennettAerospace.com.

Why consider a volunteer-based internship? The experience you will gain is “world class” and to-date, 100% of our past interns have received job offers from companies when they graduated.

Here are what past interns have said about their experience at Bennett Aerospace:

“After completing paid engineering co-op programs for 2 top 100 Fortune 500 companies, I decided to pursue a volunteer internship with Bennett Aerospace. If I had known ahead of time how much experience and knowledge I’d gain, I would have bypassed the traditional “Big Company” co-op program and worked for Bennett Aerospace to accelerate my engineering career.”

“Bennett Aerospace challenges their interns with real-world engineering problems placing you at the forefront of their highly advanced engineering ventures. And expects you to create a solution.”

"I really liked that at this company, I didn’t feel like I was "just the intern." Occasionally I had typical intern duties, but most of the time I felt more like just another -employee- working on a project. This was nice because it gave me a sense of ownership and belonging. I have friends who spent the summer as a lab rat doing the bidding of older graduate students and professors. I on the other hand got a project that I had the freedom to take in almost any direction that I wanted."

"...the exercises in commercialization have given me a unique look into how projects fit into an economic and business perspective."

POSITION SUMMARY: Bennett Aerospace, Inc. has an opportunity for an immediate non-paid Communications/Marketing Intern for two consecutive semesters. The internship will provide the opportunity for training, experience, and resume building in public relations, event coordination, social media marketing campaigns, and web content development. The ideal intern has a strong work ethic and is sincerely interested in acquiring field experience. Strong writing and research skills are required. This is a great learning opportunity for a junior or senior currently enrolled as an English, Communications, or Marketing major. Priority will be given for students who will be able to earn academic credit. Note that this is a volunteer, unpaid position.

WHAT WILL I LEARN AS AN INTERN?

- You will gain an understanding of how business is conducted in the Department of Defense and other agencies.
- You will see “best in practice” methods and operations for generating new revenue in a company.
- You will work side by side on a small, highly focused team lead by the President of the company, a senior executive with 20 years of experience in the Government market.
- You will get to work in a dynamic, fast paced environment around cutting edge technology in a variety of concentrations including lasers and optics, nanoscale materials, robotics, and biosensing technology.

JOB SPECIFICATIONS/QUALIFICATIONS:

You must:

- Be highly professional.
- Be a junior, senior or graduate student at a 4 year accredited university.
- Have exceptional communication skills and no fear of calling and talking to people on the phone or in person.
- Be highly proficient in Microsoft Office Tools Suite (Word, PowerPoint, Excel, Outlook).
- Have excellent references.

Requirements:

Due to security requirements, interns must be a U.S. person (a U.S. Citizen or permanent resident (i.e. green card holder). Interns must present proof of being a U.S. person on their first day of work.

Intern shall commit a minimum of 10-15 hours/week during two consecutive semesters.

Application Instructions:

Submit your cover letter, Resume and 3 professional references in PDF format ONLY via e-mail to job114@BennettAerospace.us. Writing samples are welcome. Any attachments must be in PDF format, or we will not open them due to virus concerns. No phone calls or recruiters. We will let candidates know via automated reply that we have received their resumes and will contact them if there is a good fit after the closing date for this job.

Bennett Aerospace, Inc. is fully committed to providing Equal Employment Opportunity to all employees and applicants for employment without regard to race, color, religion, gender, sexual orientation, national origin, age, disability, marital status, veteran status or any other characteristic prohibited by state or federal law.
