Welcome to the PURC Symposium registration site. Registration is open February 2 through March 8

If you have difficulties with this registration site please contact the PURC Center at purc@uncp.edu.

Please click on the continue button below to begin........
The primary presenter will be listed first in the program and serve as the main point of contact. If you have additional presenters to enter choose “yes” at the bottom of the screen and enter their information on the subsequent screens.

The primary presenter’s class schedule will be used to arrange which time-slot the presentation will be assigned to.
If you have a secondary presenter, please fill out this information. Continue entering presenters that are responsible for the PURC Symposium presentation.
Enter your primary or first mentor’s information on this screen. If you have more than one mentor to enter, choose “yes” and enter additional mentors on the subsequent screens.
Information about your presentation is entered on this screen. You can simply cut-and-paste your title and abstract rather than typing them in by hand. Please make sure to check your title and abstract text carefully, it will appear in the program as entered. We will not make spelling or grammatical changes.

Did you or your co-presenters receive some form of support from PURC this year (e.g. Student Travel Funds, Supply Support, an Assistantship)?
At this point you are finished, but we STRONGLY recommend that you click the “Edit your response” link in order to have the ability to return and alter your submission once you leave this site (Directions on next slide).
This URL will NOT get you back into your submission, it will take you to a new, blank submission form.

In order to have the ability to go back and edit your submission once leaving this site, copy down the full URL for this page, found here. Hint: highlight, copy and paste this address into an email and send to yourself for future reference.
